

Benjamin Dickerson

Certified Pro
Final Cut Pro 6, Level One

Profile

I am Benjamin Dickerson; an award winning Editor, Director and Producer capable of offering decadent and articulate solutions in the fields of Production, Post-Production, Creative or Technical Direction and Consultation. I've worked within Toronto's Creative Industry in many roles for the past ten years. And, for the last 6 years I've worked with just about every conceivable video or film format and distribution platform I've worked with just about every conceivable video or film format and distribution platform. I speak fluent Spatial Resolution, Compression and Data Rates for just about every video codec out there. My design background has led into a love affair with After Effects. I am perhaps most formidably an officially Apple Certified Level One Final Cut Pro user. I have even spent some time teaching Video and Final Cut Pro at Centennial College, Carbon Sound & Picture, Trinity Square Video and OCAD.
